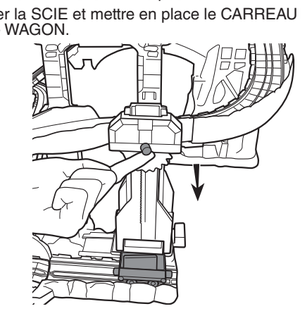
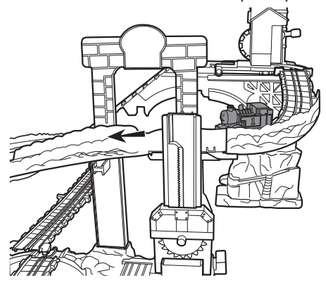
HOW TO PLAY • COMMENT JOUER

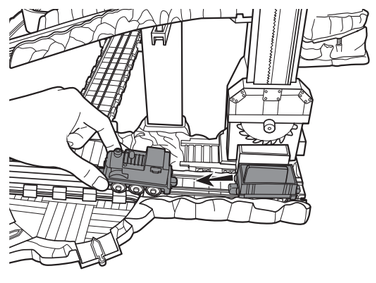
1. Raise the DROP-SAW and set the STONE SLAB and the CARGO CAR into position.
Lever la SCIE et mettre en place le CARREAU DE PIERRE et le WAGON.



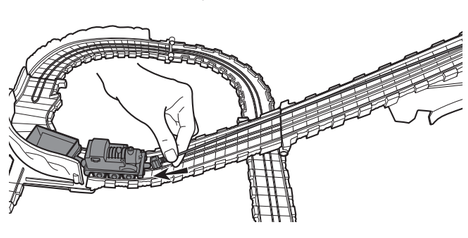
2. Send Thomas down the track – as he passes the top of the DROP SAW he will trigger it to fall and cut the stone slab into the cargo car.
Faire dévaler la piste à Thomas. Lorsqu'il passe au-dessus de la SCIE, celle-ci est actionnée et tombe afin de couper la pierre dans le wagon.



3. Spin the turntable and back Thomas into the loading area to pick up the cargo car.
Tourner la plateforme et faire reculer Thomas dans la zone de chargement pour prendre le wagon.



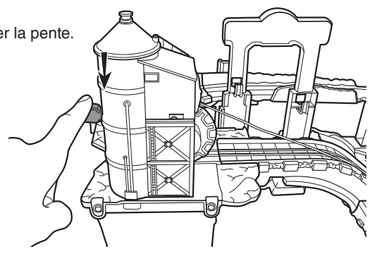
4. As Thomas reaches the bottom of the steep incline, pull the cord from the top of Owen and attach it to Thomas, fitting the plastic connector found at the end of the cord over the magnet found on the front of Thomas.
Quand Thomas arrive au bas de la pente, tirer le câble d'Owen et l'attacher à Thomas en fixant le connecteur en plastique, situé au bout du câble, sur l'aimant qui se trouve à l'avant de Thomas.



5. Press and hold the lever and Owen will pull Thomas up the steep incline.
Appuyer et maintenir le levier, et Owen tirera Thomas pour l'aider à monter la pente.

NOTE:
- For best performance, be sure to hold the lever down for the entire time Thomas is climbing the incline.
- Do NOT stop and start the winch or Thomas may not make it up the hill!

REMARQUE :
- Pour une meilleure performance, s'assurer de maintenir le levier appuyé tant que Thomas n'ait pas terminé de monter la pente.
- Ne PAS arrêter puis actionner le treuil car Thomas pourrait ne pas se rendre jusqu'au haut de la pente!



NOTE: May not work with all engines.
REMARQUE : Peut ne pas fonctionner avec toutes les locomotives.
